THE POTENTIAL TO FUEL

Stay energized by planning nutritious snacks into your day.

Nutritious snacks, in the right portion sizes, can be part of a healthy eating plan. Almost half of all Canadians say that eating a balanced diet is challenging for them because they are so busy. They often skip meals, and close to 30 per cent of Canadians say they snack to stay fuelled in a busy day. Dietitians can help you unlock the potential of food by teaching you how to plan and choose snacks and meals. Just ask!

FIVE TIPS FOR HEALTHY SNACKS

Snacks are foods or drinks that are consumed between meals. When you're on-the-run during a busy day, think of snacks as mini-meals that offer some nutritional value and an energy boost. These are different than treats, such as cookies, chocolate and chips, which are not nourishing. Here are five helpful snacking tips:

- 1. Plan ahead.** Keep a variety of healthy, ready-to-eat snacks on hand for when you get hungry. Being prepared helps you avoid less-healthy treats.
- 2. Be aware of portion sizes.** Instead of snacking from a large bag or box, take a portion and put it on a plate or bowl.
- 3. Listen to your hunger cues.** Ask yourself: am I truly hungry, or am I eating because I am bored, tired or stressed?
- 4. Skip distracted snacking!** Avoid munching while looking at a screen, driving or working. You may eat more than you need if you're distracted from your feeling of fullness.
- 5. Snack on vegetables!** About half of all Canadians don't eat enough vegetables or fruit. Snacking on them between meals is a great way to add more.

DIETITIAN PRO TIP

Diana Steele RD

Vancouver, BC

Fueling your body with healthy snacks between meals can help maintain stable blood sugar levels and lead to more consistent energy throughout the day. I have an afternoon snack every day. I always include a fruit or vegetable and a source of protein to anchor my energy. Some of my favourite snacks include: blueberries with Greek yogurt and walnuts, or apple slices with peanut butter and bran cereal.
